

Your Christmas Party

Planning a Christmas event to celebrate with work colleagues or family?

Hosting a Christmas Party for your staff is a great way to say thank you for their efforts during the year, to show your employees that they are important to you, and to continue to build team spirit. It also allows everyone to relax, unwind and bond with one another in an environment that is not work related.

Hosting a family Christmas Party at an external venue allows you to invite more than your lounge room can hold. You can relax and celebrate with your loved ones as we will be doing all the set-up, catering and cleaning.

If you would like a venue that does it all for you, then look no further than the Breakfast Point Country Club which has two function rooms available for hire by members and non-members.
